Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that mainte-

nance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Oct. 5, 1985. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on August 28, 1984, for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,467,475 through 4,468,814
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

The current amounts of the maintenance fees due at 3 years and six months are set forth in 37 CFR 1.20(e) and (h), as amended effective Oct. 5, 1985, which are reproduced below:

37 CFR §1.20 Post-issuance fees

"(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant . . . $ 225.00"

"(h) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§1.9(f)) . . . . . $ 225.00
By other than a small entity . . . . . $ 450.00"

The amounts of the surcharges as amended effective Oct. 5, 1985, are set forth in 37 CFR 1.20 (k) and (l) which are reproduced below:

"(k) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982 . . . . . $ 110.00"

"(l) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Aug. 27, 1982:

By a small entity (§1.9(f)) . . . . . $ 55.00
By other than a small entity . . . . . $ 110.00"

Section 1.20 paragraph (m) as amended as a result of enactment of Public Law 98-622 effective Nov. 8, 1984, is reproduced below:

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay in payment is shown to the satisfaction of the Commissioner to have been unavoidable . . . . . $ 500.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Application for Recordation of
Trade Name: "TWO'S COMPANY"

Action: Notice of application for Recordation of Trade Name

Summary: Application has been filed pursuant to section 133.12, Customs Regulations (19 CFR 133.12), for the recordation under section 42 of the Act of July 5, 1946, as amended (15 U.S.C. 1124), of the trade name "TWO'S COMPANY", a corporation organized under the laws of the State of New York, located at 33 Bertel Ave., Mount Vernon, N.Y. 10550.

The application states that the trade name is used in connection with acrylic and glass vases; stirrers; glass picture frames; glass products; floral accessories; commercial flower containers; Christmas ornaments; silver and silver plated products; napkin rings and vinyl products manufactured in Taiwan, Hong Kong and Japan.

Before final action is taken on the application, consideration will be given to any relevant data, views, or arguments submitted in writing by any person in opposition to the recordation of this trade name. Notice of the action taken on the application for recordation of this trade name will be published in the Federal Register.

Date: Comments must be received on or before Oct. 2, 1987.

Special Status for Patent Applications
Relating to Superconductivity

In his Remarks of July 28, 1987, to the Federal Conference On Commercial Applications of Superconductivity, the President stated that "We need to strengthen patent laws to increase protection for manufacturing processes and speed up the patent process so that it can keep pace with the fast-paced world of high technology." The President also noted that "to most of us laymen, superconductivity was a completely new term, but it wasn't long before we learned of the great promise it held out to alter our world for the better — a quantum leap in energy efficiency that would bring with it a host of benefits, not least among them a reduced dependence on foreign oil, a cleaner environment, and a stronger national economy." The President's Superconductivity Initiative of even date included, as a major administrative component, a proposal "Directing the Patent and Trademark Office to accelerate the processing of patent applications and adjudication of disputes involving superconductivity technologies when requested by the applicants to do so."

In accordance with the President's proposal, the Patent and Trademark Office will, on request, accord "special" status to all patent applications for inventions involving superconductive materials. Examples of such inventions would include those directed to the superconductive materials themselves as well as to their manufacture and application. In order that the Patent and Trademark Office may implement this procedure, we invite all applicants desiring to participate in this program to request that their applications be accorded "special" status. Such requests should be in writing, should identify the application by serial number and filing date, and should be accompanied by a statement under 37 CFR 1.102 that the invention involves superconductive materials. No fee is required. The statement must be verified if made by a person not registered to practice before the Patent and Trademark Office. Decisions whether to accord "special" status on the basis of a request will be made by the appropriate Group Director.

Requests should be addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

[Docket No. 70470-7070]

Electronic Data Dissemination Polices and Guidelines

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Proposed Amendment of Electronic Patent Data Dissemination Policies and Guidelines; Request for Public Comment.

SUMMARY: The U.S. Patent and Trademark Office (PTO) issues this notice to request comments on policies and guidelines for the dissemination and distribution of electronic patent and trademark data by the PTO. The purposes of this notice are (1) to inform the public of the PTO's intention to amend its pricing policy for data base products, and to expand the scope of its dissemination policies and guidelines to encompass patent and trademark electronic data; (2) to explain the current situation with regard to public access to automated patent and trademark search rooms and libraries; and (3) to solicit public comments on the intended proposals. The proposed pricing would amend the policies and guidelines published in 49 FR 24585 on June 14, 1984.

DATE: Comments should be submitted no later than September 21, 1987.

ADDRESS: Comments should be addressed to: Donald J. Quigg, Assistant Secretary and Commissioner of Patents and Trademarks, U.S. Patent and Trademark Office, Washington, DC 20231.

FOR FURTHER INFORMATION CONTACT: Bradford R. Huther at 703-557-1572.

SUPPLEMENTARY INFORMATION: This notice follows the form of a notice of proposed rulemaking in that the text of the amendment of policies and guidelines is accompanied by this Supplementary Information section containing introductory and background material.

The Patent and Trademark Office has determined that this notice is not a major rule within the meaning of section 1(b) of Executive Order 12291. Therefore, a Regulatory Impact Analysis has not will be prepared. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this amended policy statement by the Administrative Procedure Act under 5 U.S.C. 553(b)(A), no initial or final Regulatory Flexibility Analysis has to be or will be prepared. This notice does not contain a collection of information for purposes of the Paperwork Reduction Act.

It is the intention of the PTO to revise immediately its pricing policy for the sale of its data base products in compliance with OMB Circular A-130 entitled "Management of Federal Information Resources." Under the revised pricing policy, PTO would recover only the marginal cost (i.e., that amount that is sufficient to cover the costs of reproduction and dissemination). This will result in a lowering of most fees charged for data base products. It is also the intention of the PTO to explain the situation under Pub. L. 99-607, the 1986 legislation authorizing appropriations for the PTO, with regard to public access to the patent or trademark search rooms and libraries, and to solicit public comments on alternatives for funding public access to those search rooms and libraries. Such comments will be considered by the PTO in formulating further modifications to the PTO's current information guidelines and policies, which modifications will be published at a later date in the form of a separate proposed rulemaking.

Background

In response to Pub. L. 96-517, the 1980 legislation which amended patent and trademark laws, the PTO prepared and submitted a plan for the automation of its operations to Congress on December 13, 1982. The plan centered on two basic concepts: the creation of electronic data bases that (1) would replace the PTO's all-paper patent and trademark files, and thereby improve their intergrity and quality; and (2) would support searches, examinations, office actions and other office functions through electronic workstations which would provide text and image retrieval capabilities and perform other automation functions.

Active Federal trademark registrations have been converted to an electronic data base of textual and digital image data. A computer system has been installed to enable examiners to search the data base for textual data and codes describing designs, and within calendar year 1987 will be fully operational to retrieve and display all information as substitute for paper file searches.

An Automated Patent System (APS) is being installed for test and evaluation purposes, using one patent examining group as an operational testbed. Major operational components of APS—large scale computers with conventional magnetic storage devices, a high-speed local area data communications network, and electronic workstations equipped with dual resolution display graphics control devices and laser printers—were interconnected on July 1, 1986, to enable system test and evaluation to begin in the testbed group. Optical disk storage units were subsedquently installed to house the test data base of digital images of U.S. and foreign patents. Other equipment that will be needed to simulate the system's performance under full workload conditions will be installed and evaluated during 1987.

The text of U.S. patents issued since 1975 was entered in the system to provide the data base for use with full text searching capabilities of APS. Images of all U.S. and relected foreign patents in the testbed group's search files have been converted to digital form and are being placed on optical disks for use in electronic classification and combined text classification searches. Work has begun to digitize the entire backfile of U.S. patents. Through exchange agreements with the European and Japanese Patent Offices, European patents issued since 1920 and all Japanese patents have been or will be converted to a common facsimile standard and key patent will be entered for on-line retrieval.

Text search capabilities of APS are now being made available to all PTO examiners. A decision on the deployment of the digital image retrieval and other electronic searching capabilities is planned to be made in 1988. Additional system capabilities for office automation and other administrative support will be added to those already installed in the testbed over the next several months to supplement the search and retrieval capabilities. Examiners will be provided with access to commercial data bases, such as industry-specific data bases, through APS, from the electronic workstations.

At the present time, neither the trademark nor the patent automated systems has been deployed to the public search rooms. It is expected that the trademark automated system could be ready for public deployment prior to the end of the current authorization cycle, which is September 30, 1988. According to the 1987 edition of the Automation Master Plan, full deployment of the automated patent system to the public search room is scheduled for fiscal year 1991. Public evaluation of the automated patent system is scheduled to begin in fiscal year 1987.

Under the provisions of Pub. L. 99-607, which authorizes appropriations through

September 30, 1988, "The Commissioner of Patent and Trademarks may not impose a fee for use of public patent or trademark search rooms and libraries. The costs of such rooms and libraries shall come from amounts appropriated by Congress." In anticipation of the need to propose authorizing legislation for fiscal years 1989 through 1991, comments are being requested regarding three potential funding alternatives to support the automated public search rooms. They are:

(1) *Use of taxpayer revenues.* The costs of supporting the automated public search rooms could be covered by funds appropriated specifically for that purpose by Congress. No statutory changes would be required for this option. Presently, the paper search rooms are being supported with appropriated funds. Under current funding levels and, in the absence of authority to charge fees for this purpose, the public's access to automated search rooms would be restricted.

(2) *Use of general fee revenues.* The marginal costs of supporting the automated public search rooms could be apportioned as a cost of prosecuting an application or derived from the total available fee revenues collected by the PTO. Under this alternative, the costs for the automated public search rooms would be borne by all users of the patent and trademark systems. The user charge prohibition in Pub. L. 99-607 would have to be modified to permit this option.

(3) *Establish specific user charges for access to the public search rooms.* Under this alternative such charges for access to the automated trademark and patent systems in the public search rooms would be consistent with the guidelines of OMB Circular A-130, and would be established through the rulemaking process. The marginal costs for the public search rooms under this alternative would be borne only by those who actually use the public search rooms. The user charge prohibition in Pub. L. 99-607 would have to be rescinded to permit this option.

Electronic Data Dissemination Policies and Guidelines

The Patent and Trademark Office proposes to amend its notice entitled Electronic Patent Data Dissemination Policies and Guidelines, published in 49 FR 24585 on June 14, 1984, as follows:

The title of the guidelines would be changed to read Electronic Data Dissemination Policies and Guidelines.

Guideline III, paragraphs C and D would be amended to read:

C. Fees charged to commercial data base vendors for bulk data developed by the PTO will be based on the marginal cost of providing such distribution services.

D. Normally, arrangements with commercial data base vendors will be non-exclusive. Bulk resale of PTO data by commercial data base vendors will be permitted subject to the terms of each bulk data sales agreement.

A new Guideline V, entitled Data Base Product Pricing would be added as follows:

V. Data Base Product Pricing

Fees charged to the public for U.S. patent and trademark data products will be based on the marginal cost of providing such products.

Dated: August 17, 1987.

Rene D. Tegtmeyer,

Assistant Commissioner for Patents.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries, receive current issues of U.S. Patents and maintain collections of earlier issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections are open to public use and each of the Patent Depository Libraries, in addition, offers the publications of the U.S. Patent Classification System (e.g. The Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions, etc.) and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. With one exception, as noted in the table following, the collections are organized in patent number sequence.

Facilities for making paper copies from either microfilm in reader-printers or from the bound volumes in paper-to-paper copies are generally provided for a fee.

Owing to variations in the scope of patent collections among the Patent Depository Libraries and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours, so as to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS AMENDED, CORRECTED, ETC.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Any change to the registration will be indicated at the bottom of each entry under ELEMENTS AMENDED, CORRECTED OR RESTRICTED. With the exception of changes to the goods and services, additions to the registration will appear in asterisks and deletions of the registration will appear in brackets. Elements which are only changed will be listed with no punctuation. As to the goods/services statement, amendments to the goods/services will appear in asterisks and deletions will appear in brackets. In addition if any change to the goods/services occurs, the element "Goods/Services" will be listed under ELEMENTS AMENDED, CORRECTED OR RESTRICTED.
